| 2:25PM | Wrap-up, Next Steps – <i>Dr. Baron, CQM Chair</i>  |
| 2:30PM | <b>Adjourn</b>   |

## Mission and Vision

The goal of the SHIP is to redesign Idaho's healthcare system, evolving from a fee-for-service, volume based system to a value based system of care that rewards improved health outcomes.

*Goal 1: Transform primary care practices across the state into patient-centered medical homes (PCMHs).*

*Goal 2: Improve care coordination through the use of electronic health records (EHRs) and health data connections among PCMHs and across the medical neighborhood.*

*Goal 3: Establish seven Regional Collaboratives to support the integration of each PCMH with the broader medical neighborhood.*

*Goal 4: Improve rural patient access to PCMHs by developing virtual PCMHs.*

*Goal 5: Build a statewide data analytics system that tracks progress on selected quality measures at the individual patient level, regional level and statewide.*

*Goal 6: Align payment mechanisms across payers to transform payment methodology from volume to value.*

*Goal 7: Reduce overall healthcare costs*
