

IDAHO STATEWIDE HEALTHCARE INNOVATION PLAN

Work Group: Clinical Quality Improvement (CQI)

Research Question: CQI performance measures and quality indicators for Idaho, across behavioral and physical health populations (attachment to background and source document for CQI spreadsheet)

Sources:

Population and Insured Group

Children's Health Insurance Program

National Outcomes Measures Mental Health

Idaho Medical Home Collaborative

State Behavioral Health/Public Health/Community Services/Department of Welfare Populations

Duals

Medicare Advantage

Background: The complete Healthcare Effectiveness Data and Information Set, Substance Abuse and Mental Health Services Administration, National Outcome Measures, and the Children's Health Insurance Program measures were not added to the CQI table due to the sheer volume of the measures and subsequent domains.

Reports containing measures that are smaller in scope will be attached with this document; others can be accessed through the cited source reference.

Idaho will be implementing the Behavioral Health Plan Contract on September 1, 2013, and the behavioral health-specific performance measures are not available at this time. Idaho reports the Mental Health National Outcomes to the Center for Mental Health Services for the federal block grant; however, the data collected and the systems for collection have notations citing the limitations with the reported data.
