

SHIP Health IT Scope

IHC Charge	<ul style="list-style-type: none"> Improve care through use of electronic health records (EHRs) and connection to the Idaho Health Data Exchange (IHDE). Guide the expansion of the current health information technology (HIT) infrastructure and support integration of patient-centered medical homes (PCMHs) that are not connected to the IHDE. Build a statewide data analytics system that provides quality feedback to the clinic, region, and state. Guide the development of infrastructure for the collection and analysis of selected quality measures.
SHIP Goals	<ul style="list-style-type: none"> Goal 2: Improve care coordination through health data connections among PCMHs and across the medical neighborhood. Goal 5: Build a statewide data analytics system that tracks progress on selected quality measures at the individual patient level, regional level and statewide.

IHDE Connections

Year 1	55 Clinics	15 Hospitals
Year 2	110 Clinics (55 more)	18 Hospitals (3 more)
Year 3	165 Clinics (55 more)	21 Hospitals (3 more)

CQM Reported

Year 1	4 CQMs
Year 2	10 CQMs (6 more)
Year 3	16 CQMs (6 more)

Clinic CQM Reporting Timeline (This clarification needs to be approved by CMMI)

Clinical Quality Measures	Clinics Reporting for Year 1 (By Jan 31, 2017)	Clinics Reporting for Year 2 (By Jan 31, 2018)	Clinics Reporting for Year 3 (By Jan 31, 2019)
Measures 1-4	55 Clinics	110 Clinics	165 Clinics
Measures 5-10	N/A	55 Clinics*	110 Clinics**
Measures 11-16	N/A	N/A	55 Clinics***

* Optional for Cohort 2 clinics but required for Cohort 1 clinics

** Optional for Cohort 3 clinics but required for Cohort 1 & 2 clinics

*** Optional for Cohort 2 and 3 clinics but required for Cohort 1 clinics

CQM Baselines

- Clinic-specific baselines will be established at some point after initial clinic report (after clinic agrees the report reflects reality)

SHIP Clinical Quality Measure (CQM) List

Year 1 Measures

EMR Data – Year 1 Measures

1. Tobacco Cessation (was initially 2 measures)
2. Diabetes: Hemoglobin A1c poor control
3. Weight Assessment and Counseling for Children and Adolescents
4. Adult BMI Assessment

Year 2 & 3 Measures (need to be reviewed and potentially refined)

EMR Data

5. Childhood Immunization
6. Screening for Clinical Depression
7. Non-Malignant Opioid Use

Payer Data

8. Asthma ED visits
9. Acute Care Hospitalization
10. Readmission Rate within 30 days
11. Avoidable emergency care without hospitalization
12. Elective delivery
13. Adherence to antipsychotics

Hospital Data

14. Low birth weight

CAHPs Survey

15. Access to Care

To Be Determined

16. TBD – The health IT scope calls for 16 CQMs, but the Tobacco Screening and Cessation Counseling measures were folded into one measure, so this 16th measure could be a new measure all together.
